

Dr. Mark Frederickson received his Ph.D. in Architecture with a minor in Management from the University of California in Los Angeles / UCLA, and his M.ARCH. and B.ARCH. from the University of Arizona. He was a Peace Corps Volunteer, an ORS Scholar with the University of Edinburgh, and the recipient of three Senior Fulbright Scholar Awards as well as a recent Fulbright Specialist Appointment to the Czech Republic. Dr. Frederickson has taught and practiced Architecture, Landscape Architecture and Urban Design in a range of cultural, environmental, and professional contexts in the United States, Latin America, Europe, the Middle East, and Asia. He is internationally recognized for his award winning projects in urban design and small town revitalization, and has presented keynote addresses in both Latin America and the Middle-East. He is also the founder of the Tejido Group, an international and interdisciplinary community outreach design and planning organization. Dr. Frederickson and the Tejido Group are the recipients of four Master Plan of the Year Awards from the Arizona Planning Association and two national design and planning awards from the American Society of Landscape Architects. The Tejido Group evolved into an important source of external funding and design and planning awards for the College. Dr. Frederickson was also the primary developer of international design and planning programs for the University of Arizona through his outreach efforts and applied research projects on four continents. His retirement from the University of Arizona has allowed him to continue his focus on international collaboration. Dr. Frederickson currently consults with universities in Latin America, Europe and the Middle East, including Bilkent University and ARCHIP, where he assists in the development of new programs in Architecture and Planning. He is a LEED accredited professional.

We offered a Master of Architecture degree program taught in Spanish and English to two Mexican Universities: Universidad Autónoma de Tamaulipas and Universidad Autónoma de Nuevo León. Coursework was presented in Monterrey, México and in Tucson, Arizona. This three-year program graduated its first class in the summer of 2002.
- Universidad de Panamá / as a Fulbright Professor, one of my responsibilities was to assist in the development of a Graduate program of Landscape Architecture in their College of Architecture.
- University of Arizona / I assisted in the design and development of the undergraduate five-year curriculum in Landscape Architecture. I also participated in the design and development of their new graduate curriculum. During this time I assisted in developing new Promotion and Tenure guidelines for Landscape Architecture. I developed the first CAD lab in landscape architecture, the first Community Outreach Office, the first Internship Program, and I also developed and taught the first overseas study programs for landscape architecture at both Michigan State University and the University of Arizona.
- University of Jordan / as a Fulbright Professor, I was charged with program and curriculum development for the University of Jordan. During this time I helped develop their new six-year Architectural Engineering degree program.
- American University of Beirut / I assisted in developing a new Landscape Architectural program at the American University of Beirut. Due to civil unrest this program has yet to be implemented.
- King Fahd University of Petroleum and Minerals / I assisted in developing two new Graduate Programs in City Planning and Landscape Architecture. The City Planning Program has been implemented. I also developed and directed two international seminars on design communications, and on arid lands design and planning principles during my stay at King Fahd University.
